

Tripod Barriers in public & private facilities tend to be touched several times a day, enhancing the possibility of spread of bacteria and infectious diseases.

Hygiene is non-negotiable, and special care needs to be taken by facility owners to ensure this.

dormakaba now offers a comprehensive solution to counter this problem - antimicrobial coating!

dormakaba 

Antimicrobial coated Tripod Barriers are used in following areas for quick entry:

- 🪑 Office and administrative buildings
- 🏛️ Government Offices & Public authorities
- ✈️ Airports
- 🏟️ Stadiums & Amusement parks
- 🏦 Banks and financial institutions
